Dear Sir/Madam,

**Town and Country Planning Act,1990 (As Amended)
Agricultural and Forestry Development.
Application for determination as to whether prior approval is required for further
details.
Ross Farm Woodside Woolaston
Prior notification for the erection of two agricultural buildings.**

A submission has been made to the District Council under the above legislation, the details can be viewed through the link below. A hard copy will be posted to you.

The Council must determine if it requires information related to siting and design of this building prior to confirming that the proposal is permitted development. Government advice to Local Planning Authorities is to bear in mind that these buildings/works are still 'permitted development' and for us not to require these further details unless site conditions demand.

A decision has to be made within 28 days and so I should be grateful if you could let me have your council's response, on the enclosed application, by **1 December 2017**.

Yours faithfully

Clive Reynolds
Development Manager
